- ✓ Microwavable

## A Refreshing feeling in itself is a sense of healing

ECO Comfort Wipes provide a simple, rinse free, antiseptic body cleansing solution as well as a refreshing feeling for travelers as well as patients in hospitals. They are alcohol free and are designed to clean, disinfect and moisturize the body in one easy step.

Containing an Antiseptic formula with Benzalkonium Chloride, as well as skin conditioners and moisturizers, ECO Comfort wipes help to reduce harmful skin bacteria by providing rapid bactericidal action and long lasting residual protection. Conveniently replacing the more traditional methods of bathing such as sponge baths, preparing bowls, washcloths, water, soap, lotions and towel drying, they are also cost effective —reducing laundry bills and nursing time.

Each Wipe has a size of 24 x 30 cm.  
Package Variant: Available in a pack of 5 and 10 wipes.

## Why use ECO Comfort?

ECO Comfort Wipes provide a rinse free bathing solution for cleaning & disinfecting body. It can be used for the following

- ✓ Daily bathing for reduction in central line-associated bloodstream infections (CLABSIs).
- ✓ Preoperative Skin Cleansing for reduction of Surgical Site Infection
- ✓ Used at Trauma Center to reduce bacterial infection

**DIRECTIONS FOR USE:** Simply open the package, unfold the tissue and apply on skin. Each individual wipe is designed to cover 2.5 sqm of surface area. Bath Wipes can also be put in a microwave for a hot/warm bath.

**ACTIVE INGREDIENTS:** Benzalkonium Chloride I.P (0.08% w/v), Aloe Vera, pleasant fragrance, skin emollients, preservatives, purified water and emollients. ECO Comfort is an alcohol free product.
