

**ANTI-MICROBIAL**

**LINT FREE**

**ANTI-STATIC**

Cleanroom apparels designed to reduce contamination  
from humans and reduce the bio burden load

**BLUFENZ**<sup>TM</sup>  
PERSONAL PROTECTIVE WEAR

# BLUFENZ™

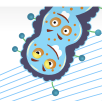

## BEST DEFENSE

against nosocomial infections & opportunistic pathogens

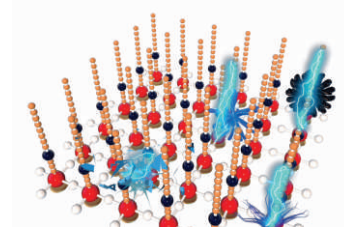

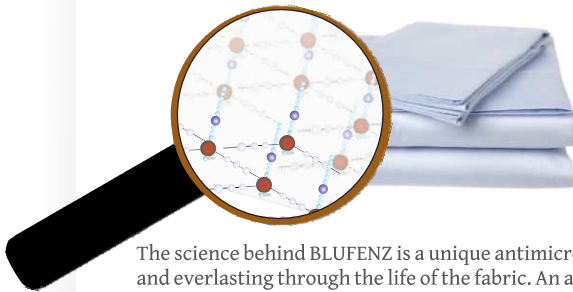

Bacteria	%Reduction
Pseudomonas Aeruginosa	99.99%
Escherichia Coli	99.99%
Staphylococcus Aureus	99.99%
Candida Albicans	99.99%
Aspergillus Niger	99.99%

as tested under experimental conditions JISL 1902:2008

**BLUFENZ is a permanently bonded anti-bacterial technology that works to kill and inhibit growth of pathogen, preventing infections from textiles**

### Permanently bonded Anti bacterial property

The science behind BLUFENZ is a unique antimicrobial technology that provides a barrier of protection which is highly effective and everlasting through the life of the fabric. An antimicrobial shield is formed by a long molecular chain of carbon atoms with a +vely charged nitrogen attached to a Silica Atom & bonded to the fabric. Pathogen, which are -vely charged comes in contact with the +vely charged molecular chain & undergoes lysis. This mechanism provides continuous defense achieving anti-microbial activity and does not deplete over washes.

## Anti Microbial Textiles

99.99% Germ Protection, Durable, ECO Friendly & Reusable

Anti-Microbial pillow with stain resistance

Anti-Microbial Low & Medium thermal blankets

Anti-Microbial protective sheets and pillow covers

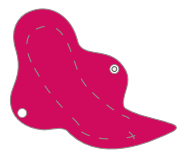

Anti-Microbial Doctor protective wear

Anti-Microbial Cleanroom Protective Wear

Anti-Microbial, N99 AirMask

Anti-Microbial Dignity Sanitary Pad
