

World Health Organization

Bug Off is a novel product designed to repel mosquitoes/insects, providing protection to all age groups including adults and children above two months. Its applied on exposed skin and clothing. Formulated with DEET, Natural Citronella extracts and skin emollients such as Olive Extracts and Vitamin E, Bug Off offers complete protection from mosquito borne illness.

8 Hours Protection

Bug Off is applicable for all age groups. It is applied on skin and clothing and provides protection upto 8 hours.

Skin friendly

Containing Olive Extracts, Vitamin E, Bug Off is uniquely formulated along with DEET to have a pleasant experience.

Disease Prevention

DEET based products are recommended by WHO, CDC, American academy of pediatrics and other health research organizations for complete protection against ZIKA, DENGUE, MALARIA, CHICKUNGUNYA, WEST NILE VIRUS & others.

Safety Record

DEET has a proven track record for 60 years and 8 billion human applications. DEET masks the sweat odor emitted by humans inhibiting the mosquitoes to detect the presence of humans. This helps create a barrier against mosquitoes.
