

— FEEL SAFE, FEEL FREE —

— INTRODUCING SAFEPAD™ —

Health and Hygiene

Safepad™ is a reusable sanitary pad designed to provide a safe and infection free experience while in use.

During the menstrual period 75% of all women suffer from the infection Candidiasis, an infection that causes health issues and in worst cases will impact the fertility.

Safepad™ hygienic sanitary pads are designed with a permanently bonded antimicrobial technology that helps reducing vaginal infections caused by *Candida albicans* along with infections from other pathogens.

The antimicrobial technology is based on a treatment that leaves a positively charged layer on the fabric. This layer will attract and kill the negatively charged microbes, like bacteria and fungi. The treatment does not contain any harmful chemicals.

The permanently bonded antimicrobial fabric along with a highly absorbent material provides a comfortable and hygienic experience for the women.

Antimicrobial Efficiency*

<i>Pseudomonas Aeruginosa</i>	99,99% reduction
<i>Escherichia Coli</i>	99,99% reduction
<i>Staphylococcus Aureus</i>	99,99% reduction
<i>Candida Albicans</i>	99,99% reduction
<i>Aspergillus Niger</i>	99,99% reduction

* as tested under experimental conditions JIS L 1902:2008

Comfortable

Safepad™ is made of a soft, durable and breathable fabric, that offers reusability, protection and comfort.

Environmentally friendly

Safepad™ is re-usable and can be re-cycled.

Easy to Use:

Safepad™ has high and quick absorbency technology and will not leach during use.

Safepad™ fabric technology ensures high and immediate absorbency, non-leakage and quick drying after wash.

We are committed to serving women in need of hygienic protection.

— THE ADVANTAGES OF SAFEPAD™ —

Antimicrobial ✓

High absorbency ✓
