

ESSENTIALS

PATIENT HYGIENE KIT

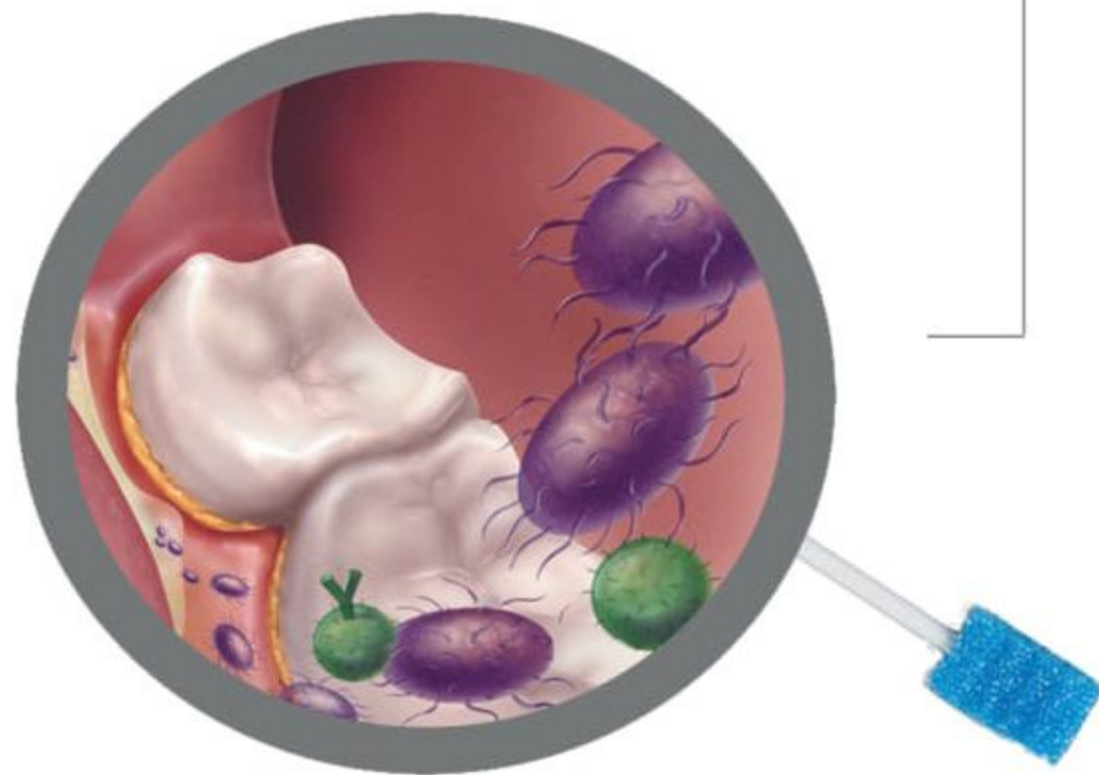

ECO Bath Wipes

ECO Bath Wipes containing 2% CHG solution provides a rinse free cleansing, protection and moisturizing benefits. Recommended by CDC for Pre-op, Post-op and daily bathing for patients at hospitals, CHG bath wipes are proven to reduce nosocomial infections upto 70%.

Perio Protect

Perio Protect is a CHG based Oral mouthwash that is used for controlling the infections for Ventilator assisted patients. Perio Protect comes with 3 soft swabs that enable easy cleaning of the oral cavities for the bed ridden patient. Daily cleaning is required to protect the patient from plaque buildup.

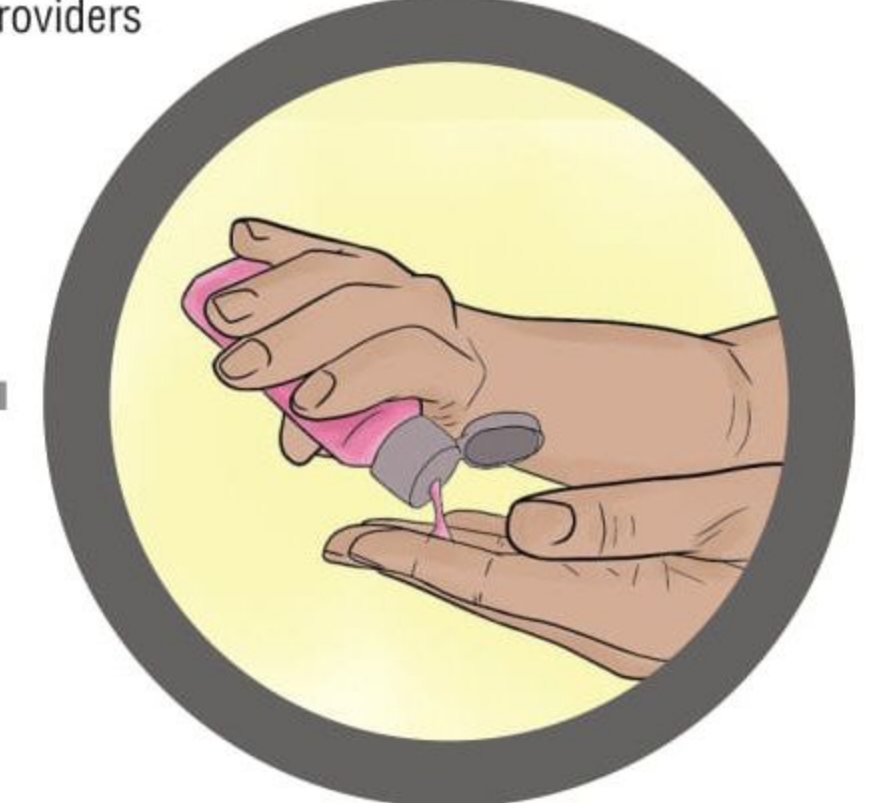

Theruptor PREP Wipes

Theruptor CHG PREP wipes contain 10% CHG with Iso propyl Alcohol. It is used for cleansing the incision area for Catheter incision. CDC recommends the usage of 10% CHG IPA Wipes for maximum protection for patients undergoing IV, Center line Catheter incision, Urinary Catheter incision and Dialysis Catheter incisions.

Theruptor Handrub

Theruptor CHG handrub is used for hand hygiene and is effective against a broad spectrum of microorganisms. CDC recommends the usage of a CHG Alcohol combination Handrub to provide a residual protection for both patients and healthcare providers

Theruptor IV Dressing

Theruptor IV Fixator Dressings provide safe and strong fixation for the IV catheters used on patients. The Dressings contain an absorbant pad that helps cushion the puncture site. Theruptor IV Dressing Kit comes with a reinforcing strip which further enhances the safety of IV tubes. Theruptor IV comes in both Water Proof and Non woven dressing material with a hypoallergenic acrylic adhesive
